

Would you like to use your crafting skills to support a local island charity and bring joy to care home residents?

Embracing Age is a registered charity supporting care home residents across the Isle of Wight, particularly those without friends or family, to help combat loneliness and isolation.

We are looking for volunteers to make items in the comfort of their own home, or in a group, that can be given to residents during the year and at Christmas. E.g. Knitted shawls, blankets & toys; fingerless mittens; photo boards; small bags.

If you are interested please contact Jean Cotton:
